# **ABOUT US**

Phuong Xa Agricultural Product Processing Private Enterprise, based in Cam Khe, Phu Tho, Vietnam, is a premier producer and exporter of Vietnamese teas. With a focus on Black Orthodox, CTC, and premium Green Teas, we combine traditional farming knowledge with modern processing methods to ensure consistent quality. Our teas are widely appreciated in India, China, Russia, Turkey, Pakistan, Singapore, and several other countries. We are committed to quality, sustainability, and long-term global partnerships

Grown on ancient tea trees high in the misty mountains of northern Vietnam, Shan Tuyết tea is a rare and precious variety known for its purity, strength, and rich aroma. Each leaf is covered in a fine white "snow" — tiny hairs that reflect its wild, untouched origin. Hand-picked by ethnic minority communities, Shan Tuyết offers a bold yet smooth taste, with earthy, floral notes and a lingering sweetness.

Phu Tho teas are known for their soft, mild liquor and subtle aroma, making them an ideal base for tea blending. Grown in the fertile hills of northern Vietnam, these black teas offer a light-bodied infusion with balanced flavor and low astringency. Their versatility and consistency make them a favorite choice among international blenders and packers.

Vietnamese green teas are prized for their vibrant green leaves, delicate curls, and fresh, grassy aroma. When brewed, they produce a clear, pale green to golden-yellow liquor with a smooth, slightly vegetal taste and mild astringency. The appearance is often neat and twisted, reflecting traditional pan-firing techniques.
